Re: Hulburt Avenue/Road Vehicular Traffic Safety Improvements Meeting

Date: October 23, 2018

The Village of Fairport would like to invite you to a public information meeting on Tuesday, October 30, 2018 at 7 p.m. to discuss the proposed Hulburt Avenue/Road Vehicular Traffic Safety Improvements. The meeting will be held at the Minerva DeLand School located at 140 Hulburt Road in the Large Group Instruction Room. Please utilize the main entrance when accessing the building.

On October 9th, the Village sent a letter to all residents on Hulburt Avenue/Road notifying them of the safety improvements the Village was facilitating to enhance driver awareness and safety at the curve. This meeting will supplement that letter and offer an opportunity to have the proposed improvements discussed with you in addition to answering any questions you may have. As a reminder, the following amenities are proposed to be implemented on Hulburt Avenue/Road.

1. Install "No Stopping Anytime" signage from James St. to Erie Crescent.
2. Replacing and relocating flashing curve signs with incorporated 15 mph speed zone.
3. Installing chevrons within the public right-of-way approaching each side of the curve.
4. Replacing curve warning signage.
5. Replacing and relocating school zone signs.
6. Replacing existing stop signs and streets signs on an as needed basis.

Thank you for voicing your concerns and contributing toward the participatory governance the Village of Fairport strives to promote. We firmly believe these enhancements will greatly improve vehicular and pedestrian safety when navigating this area. We look forward to speaking with you next week. Please do not hesitate to contact us should you have any questions.
